

**FOR IMMEDIATE RELEASE:**

Ridewell Introduces RAR-260 Trailer Air-Ride Suspensions

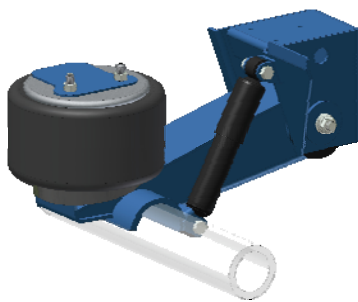

*Springfield, MO – May 20, 2009* – Ridewell is pleased to announce the release of RAR-260, a trailer air-ride providing the optimum balance between price and performance. Available in overslung and underslung configurations for both 25,000 lb. and 30,000 lb. capacities, RAR-260 is an ideal choice for any application.

RAR-260 suspensions are manufactured with Securelok pivot nuts for maintaining pivot clamping force. The unitized nut, washer, and shim combination is highly resistant to loosening under vibration.

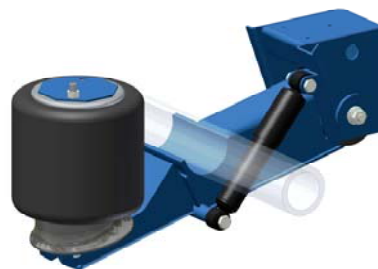

Additional features of Ridewell's RAR-260 include:

- Industry standard Tenneco™ multi-functional bushing
- Integrated shock absorber mounting
- Pivot bolt requires only 500 ft.-lbs. torque
- Axle alignment adjustment capability +/- .25" at hanger

Mounting heights range from 14" to 18" for RAR-260 overslung and 5.5" to 9" for RAR-260 underslung.

RAR-260 Overslung

RAR-260 Underslung

Ridewell manufactures suspensions for the truck, trailer, bus, and RV industries. The company supplies the North American community and many other countries worldwide.
