

**FOR IMMEDIATE RELEASE:**

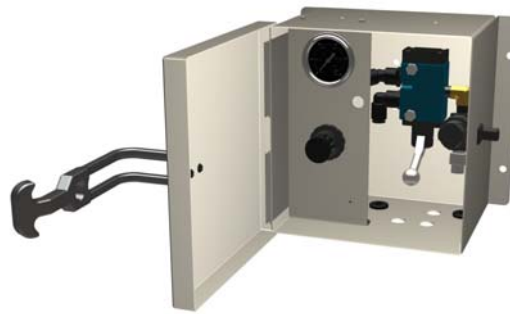

**Ridewell Releases ACK Box for Single Axle Lift Systems**

*Springfield, MO – December 7, 2011* – Ridewell is pleased to announce the release of a new ACK (air control kit) box specially designed for single axle lift systems. A complement to our existing box (which controls two axles), the new box has a rubber gasket around the door to further improve weather resistance.

Available with a manual or electric valve. Other options include: manual regulator and gauge, preset regulator, and lift in reverse

Electric Valve

Manual Valve

New kits available for order:

1200227 – Electric preset regulator, Manual regulator, no lift in reverse (for 215/245)

1200228 – Electric, No preset regulator, manual regulator, lift in reverse (for 232)

1200226 – Manual up/down, preset regulator, manual regulator (for 215/245)

Other configurations available upon request.

Ridewell manufactures suspensions for the truck, trailer, bus, and RV industries. The company supplies the North American community and many other countries worldwide.
