

Ridewell Suspensions to Supply E-One's Bronto

Springfield, MO – Ridewell Suspensions is pleased to announce that E-One, a division of Federal Signal Corporation, has incorporated Ridewell's Dynalastic suspension as standard on the Bronto Skylift articulating platform.

Ridewell's model 202S Dynalastic is a proven suspension that has served the fire and rescue truck manufacturers for more than 30 years. This unit which was designed exclusively for E-One features an articulating compensator with elastomer springs and individually articulated torque beams for maximum travel and durability.

E-One's Dynalastic is rated at 62,000 pounds and features "near air-ride comfort" with rugged durability. According to Paul Stephenson, Aerial Product Manager for E-ONE, "The Dynalastic suspension offers customers a ride quality improvement beyond traditional spring suspensions. This tandem axle suspension complements E-One's success with Ridewell on single rear axle aerials rated at 31,000#."

Ridewell Suspensions engineers and manufactures suspensions for the truck, trailer, bus and RV industries.
